AYP Regional Trainings

April 22 - May 6, 2011
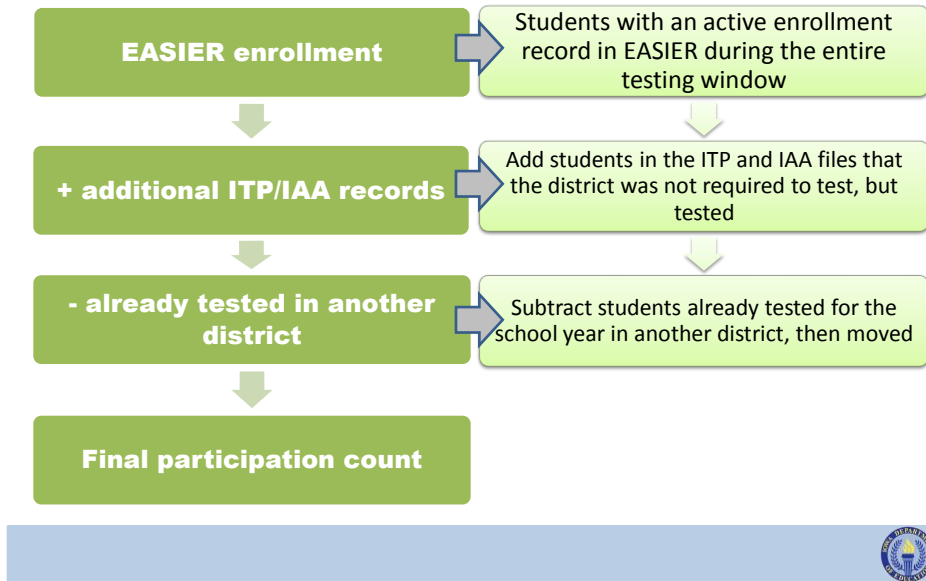

Spring 2011 Changes

- Using EASIER data to calculate student enrollment counts and full academic year (FAY) status
  - Approved EASIER files are copied into AYP nightly

- Testing the process
  - Option to use EASIER data or manually enter participation counts
  - Accountable FAY still based on the barcode
  - Clean EASIER data for 11-12 school year FAY

EASIER participation counts

EASIER enrollment	→	Students with an active enrollment record in EASIER during the entire testing window

↓

| + additional ITP/IAA records | → | Add students in the ITP and IAA files that the district was not required to test, but tested |

↓

| - already tested in another district | → | Subtract students already tested for the school year in another district, then moved |

↓

| Final participation count |

EASIER entry codes

- All students with entry code of 1, 2, 3, 5, 15, 19
  - district = attending district, building = attending building
- All students with entry code of 4
  - district = resident district, building = '0000' (district level)
- Entry Code Key:
  - 1=enrolled
  - 2=open enrolled
  - 3=tuitioned in parent paid
  - 4= tuitioned in district paid
  - 5= whole grade sharing in
  - 15=tuitioned in state paid
  - 19=foreign student on Visa

Enrollment count logic

- Students enrolled on first day of testing through next six calendar days (testing window)
  - First day of testing is supplied to DE from ITP, but can be changed on the AYP application
- Tuitioned in (district paid) students use testing date from attending district

Fixing enrollment errors in EASIER

- Roll back EASIER file
- Modify student enrollment information
- Re-approve EASIER file
- Must wait overnight for changes to appear in AYP

- Will need to correct EASIER as this data will be used in Spring 2012

-Differences-
EASIER students not in AYP

'Not Applicable' is not a valid reason.

If student was not enrolled, enrollment information in EASIER is inaccurate and must be fixed.

If student was enrolled in district but did not test, a valid reason must be entered for student in EASIER.

If stateID issue, call Connie Brooks @ 515-281-5471

FAY logic

If a student has Entry Code of
   '1' (Enrolled)
   '2' (Open Enrolled In)
   '3' (Tuitioned in Parent Paid)
   '4' Tuitioned in District Paid)
   '5' (Whole Grade Sharing In)
   '15' (Tuitioned in State Paid)
   '19' (Foreign Student on Visa)

The student is put into FAY counts

FAY logic

Then the following Exit Codes (occurring between Test Date A and Test Date B) **break FAY for district and building**
   '1' (Transferred)
   '2' (Open Enrolled Out)
   '3' (Tuitioned Out District Paid)
   '4' (Dropout)
   '5' (Expelled – if NOT receiving educational services)
   '6' (Reached Max Age)
   '7' (Deceased)
   '8' (Graduated from High School)
   '9' (Illness – if NOT receiving educational services)
   '10' (Whole Grade Sharing Out)
   '11' (Tuitioned Out Parent Paid)
   '27' (Interim Placed if NOT at an AEA School/Sponsored program or in a Community College program)
   '29' (Expulsion from Previous Year if NOT receiving educational services)

FAY logic

Then the following Exit Codes (occurring between Test Date A and Test Date B) **break FAY for building only**

'5' (Expelled – if receiving educational services)

'9' (Illness – if receiving educational services)

'27' (Interim Placed - if placed at an AEA School/Sponsored program or a Community College program)

'28' (Transfer within District)

'29' (Expulsion from Previous Year if receiving educational services)

NOTE: The exit code of '14' may or may not break FAY for building or district depending on the re-entry status

Exit code '14' vs. '28'

- Use exit code '14' *End or Change Enrollment* if a student has a change in
  - Entry code
  - Resident district
  - Foster care
  - Service Provider/Facility
  - FTE

  And continues enrollment in the district.

Youth Shelter/Detention Center Example

Student was sent to a **Youth Shelter** for 2 or 3 weeks after testing date Year A but returned and was present testing date Year B.

Entry Code = AYP-relevant code

Entry Date (Year A) is prior to testing

Exit Code is '14' AND Exit Date is last date of attendance prior to placement in shelter/detention center

New Enrollment Period created to reflect time in Shelter/Detention Center

Entry Code = Same as Above

Entry Date = First day at Shelter/Detention Center

Service Provider = '90989601'

Service Type = '99' (Not Applicable)

If/when student returns, New Enrollment Period created to break the connection to the shelter/detention center

When student returns, you will again use the Exit Code '14' to end the association with the shelter/detention center and re-enroll accordingly (Entry Date prior to testing date year B)with a Service Provider value of NULL

➔ **FAY District only**

Exit code '14' vs. '28'

- Use exit code '28' *Within district transfer* if a student has an AYP entry code and changes buildings within the district

  – Do not use exit code '1' Transfer with a destination location of your district. This will break FAY for district
